Windows. I just upgraded to OSX
10.10.2 and now Rhino 6 install
will not launch. I am using the
version from Rhino Academy. A: I

had a look at the installation log and came to the conclusion that the Rhino 6 installer can't read the filesystem where the Windows 7 installer left it during its installation. It might be possible to change the installer's environment file: Go to the folder where the installer has left the Windows 7 installer files (.msi). Go to the folder with this file and open the environment file "quarantined.msi.reg" with a text editor. Close to completing this

Mega-Prague Jeep Drive Ok, I know I am late in posting this, but it was a long project...and to be honest, an interesting one. Over the past few weeks I have been driving my 2013 Jeep Wrangler through Prague and taking pictures along the way. This has been an eye-opening trip for me, and I have learned a lot about the Czechs, their religion, their customs, and their modern culture. I have been absolutely delighted by the warm hospitality

that I have been shown by locals and by my friends that I have met along the way. I have learned about their love of Jeep's, and I have learned about the spirit of the journey. I have also been inspired by the memorials dedicated to the Peace Corps volunteers that have helped open new doors in their lives. I did not make it to the end of my Prague Jeep Journey without much
