Click "Download Now" to get the Drivers Update Tool that comes with the NVIDIA GeForce GT 430 :componentName driver. The utility will automatically download the latest drivers, installing the latest versions of the GeForce GT 430 :componentName driver. Adult-specific differential effects of prenatal exposure to ethanol on prepulse inhibition and sensory gating in P, AP, PP and APAP rats. The effects of prenatal exposure to ethanol were investigated in rats of different genetic vulnerability to ethanol and on prepulse inhibition (PPI) and sensory gating. Dams were fed liquid diets containing 5% ethanol or isocaloric carbohydrate (control) during pregnancy and lactation. Paternal and maternal alcohol drinking did not lead to significant differences in drinking behavior of the offspring in any group. Sensory gating and PPI were assessed in the offspring at 4, 8, and 15 weeks of age. Prenatal ethanol exposure (AP) did not affect sensory gating or PPI in any of the offspring at any age tested. Prenatal ethanol exposure (P) during the second trimester of pregnancy significantly increased sensory gating in AP rats but not in P rats and prenatal ethanol exposure (PP) during pregnancy, in which dams had been forced to drink, also increased sensory gating in PP rats, independent of ethanol exposure during lactation (APAP). Significant effects were seen for both sensory gating and PPI in the AP and APAP groups. It is proposed that specific genetic factors combined with prenatal ethanol exposure during

a particular critical period of development may influence susceptibility to central nervous system dysfunction, either in the absence 595f342e71
