Off-road racing is an off-road racing video game developed by Gameloft and published by Gameloft for Android and iOS devices. It was released on August 16, 2010. The game features multiple gameplay modes as well as 17 vehicles, many of which are not available in the rest of the Gameloft lineup. The game follows in the style of the Real Racing series as it features highly detailed graphics, and a focus on vehicles rather than a track. Some vehicles are similar to those in the Real Racing series, but some are fictional vehicles. The game features a player-friendly interface,

which includes in-car and in-game assist functions. There is no real-time strategy in the game, as the player races against the clock to complete a race, with no opponents. After the race, the player will receive the statistics of their race.. Features 17 racetracks with on-screen road and off-road options. 7 Features of Off Road Racing.
