Download video.Q: How to add border to VCalendar with a separate VCalendar element I want to create a calendar on a website using VCalendar, with border. When I add border style to element it fills up page and calendar frame, see picture below: I tried to remove it from element and include border styling to vCalendar, but it doesn't work. Is it possible to add border to VCalendar element? I used this code: A: You'd need to add this
